

The image shows a right hand with a black sensor device on the wrist and yellow rings on the fingers. Two coordinate frames are shown: a 'Wrist Coordinate Frame' at the wrist and a 'Sensor Local Frame' on the middle finger. Both frames have X (green), Y (blue), and Z (red) axes. The wrist frame's Z-axis points towards the thumb, while the finger frame's Z-axis points towards the thumb. The finger frame's Y-axis points towards the index finger, and its X-axis points towards the thumb. The wrist frame's Y-axis points towards the index finger, and its X-axis points towards the thumb.
